## *Principal's Message*

To you, who stand at the threshold of graduation, a farewell message. Perhaps the most valuable result of all education is the ability to make yourself do the thing you have to do, when it ought to be done, whether you like it or not. It is the first lesson that ought to be learned; and however early one's training begins, it is probably the last lesson that he learns thoroughly.

## *Dedication*

We the class of 1954, dedicate this, our yearbook, to our advisors, MRS. EDITH LOWELL and MISS PHYLLIS COLE, who through their understanding and guidance our many projects and goals have been made possible.

# Class History

September, 1950, marked the beginning of our high school career and the opening of a new approach to learning and working together. We recall the sensation we felt as we entered our new home. It was a strange sensation mingled with awe and determination at the same time. The coming of our welcoming reception, prompted by the threatening remarks of the Seniors, created a little fright in us and wonder of what sort of treatment was in store for us. How relieved we were upon arriving at the Town Hall and settling down to a most entertaining program conducted by our big brothers and sisters! This amateur talent show made such a hit with us that we decided to put one on at Christmas for our own enjoyment. One of our first disappointments was not being able to conduct any class functions. We showed such a strong desire to hold just one affair that we were permitted a skating party. Nearly the whole class turned out for this event, which was held on Lake Ripple. It proved a hugh success. We had no trouble in recruiting candidates for class offices. From quite a long list we finally elected Earl Eccleston as president, Bruce Longbottom as his able assistant, Joan Varner to record our big business transactions, and Nancy Arnold to set up savings accounts for us. Our first class function had been such fun that we anticipated having another one, preferably a class trip. We all agreed on taking in a night baseball game and managed to secure tickets to a Red Sox-Yankee game. Our plans were rained out and we were compelled to settle for a Braves-Dodger game the following night. This climaxed our first year at Dear Old Grafton and left us anxious for the first time to return to school in the fall.

Upon returning as Sophomores to Grafton we welcomed thirty-one new classmates from Upton. From this new group we elected Joseph Wright as our new president; Bruce Longbottom, vice president; Joan Varner, secretary; and Thomas O'Leary, treasurer. Remembering the fun we had had the previous year on a skating party, we settled down to planning another. The date was set five different times but the weather interfered each time. We next undertook to prepare for our first school dance, the Sophomore Hop. It was held in the Grafton Town Hall and proved to be the last school dance ever held in the town hall. The date, after much discussion, was finally set for March 17. We decorated the hall with very appropriate green and white decorations to fit this festive St. Patrick's Day. The "luck of the Irish" must have been with us, for the dance proved to be a tremendous success. Being an original-minded group, we decided to take a trip to Nantasket Beach. Many happy memories will be recalled of this trip, especially of the moonlight cruise from Nantasket to Boston. As the trip occurred nearly the last day of school, it furnished a pleasant note with which to end the year.

Our third year marked a year of fun-filled activity. It almost seemed as though we were Seniors to some of the teachers who thought we were allowed too many privileges. Our first business of the year was the choosing of class rings. Our class chanced to be the last to be able to choose class rings, as Grafton was to adopt a school ring. Following the social pattern set by previous classes, we began planning for the first school dance of the season, the Harvest Hop. The annual Junior Cabaret was next on the program. With whole-hearted enthusiasm the casts of the two one-act plays and the dance committees began making preparations. We chose for plays, "*If Girls Asked Boys for Dates*," a comedy directed by Mrs. Lowell; and "*Not Tonight*," a melodrama directed by Miss Noyes. For many

members of the casts, it was their first experience on the stage, but they all performed with the confidence of veteran actors and actresses. Of course, the most memorable occasion of the social schedule was our Junior Prom. The decoration committee magically transformed the auditorium into a spring garden. The throne upon which Queen Eva Benoit and her lovely attendants sat was the center of attraction. The fragrance of fresh spring flowers and the soft pink and blue decorations were the background for a perfect dreamland. The remainder of the year was spent in transacting a good deal of business. We elected Helen Fadden, Editor-in-Chief of the *Compass*. Being a very discriminating class, we were naturally interested in securing the best and most economical photographer with whom to do business. We made arrangements to have an interview with three major photographers from whom we chose Lorings. Our first experience in selling to earn money for our Treasury will always be remembered. Evidently the product we were trying to sell was not so worthless as we thought, for we made a net profit of \$32. Joan Varner and Bruce Longbottom again resumed their duties as secretary and vice president respectively, while Thomas O'Leary took over the office of president and William Shackett that of treasurer. Our year's activities were again concluded with a class trip. This time we chose Whalom Park as our destination and invited the Sophomore Class to accompany us.

Without our fully realizing it, our Senior year was upon us. Our goal of raising sufficient funds to meet the costs of our yearbook, graduation and Class Night was set, and we began planning projects to help attain this goal. One of our first projects, which was not by any means a hard one, was that of putting on a "*Hobo Swing*." We also performed such arduous tasks as conducting the school census, soliciting patrons and patronesses, and selling Christmas cards. One of the most pleasant tasks awarded to seniors is that of putting on a Freshman Reception. Ours was particularly enjoyed by our little brothers and sisters, who were delighted by the Bathing Beauty Contest featuring all-male contestants. Our Senior Play, "*Never Darken My Door*," was a smashing hit, much credit going to the members of the cast as well as to Miss Noyes, who did an expert job of directing the play. March 17 seemed to be a popular date with our class for dances. The name "*Senior Shenanigans*" provided an appropriate theme for our last dance. In recognition of the good citizenship they displayed, Shirley Stott and Bruce Longbottom received the honor of attending a good government convention. Shirley attended the D.A.R. Convention and Bruce the "*Student Government Day*" at the statehouse. Perhaps one of the most disappointing events to many seniors, was the cancellation of the annual Washington Trip. It was the first time since the establishment of the trip in 1924 that such an event occurred. Our Class Night exercises provided us one last hour together before the final parting at graduation. All past grievances and disagreements were laid aside as the class united to enjoy this last opportunity of meeting informally. Looking back we recall how each day of our high school career has paved the way toward a brighter future. Our class, though not noted particularly as an honor roll class, will be remembered for its originality and independence, two qualities which have been developed through the patient efforts of our teachers. We are a confident class, one that realizes its goal and is determined to reach it at any cost.

# *Prophecy*

It is my pleasure and duty as the only person from the class of '54 who chose to stay on earth to round up the "gang" for our first reunion. This is to be held right here on earth, June 11, 1964.

My, how times have changed in those ten years since that last June we filed out of Grafton High School!

In those days we were afraid of the Atomic Bomb, just learning about jets, and had to watch our figures, diets; ah, fond memories! Today the only thing that bothers us is the fear of being invaded from a planet not yet discovered. We have lost memories of the push-button age, robots you know, handy things to have around the house. Everything is either controlled by Radar or by atomic power. We have all learned Einstein's theory, and put it to good use. We have traveled to all planets and discovered a new one, Graftonia.

I wonder (I have always had a vivid imagination) just what the old gang is doing right this very minute. I'll bet that I can predict just who is doing what; anyway, it will be fun trying. Here goes.

AUDREY ALSOP has invented a new musical instrument. Instead of her old-fashioned piano, she now has gathered 88 stars and has a set of chimes.

FRANCES BENNETT is the head-supervisor of the Universal Occupational Therapy Center situated on Mars.

EVA BENOIT has opened a Uniform Factory which supplies all Planetarian Space Ship Companies with stewardess Uniforms.

In a newspaper office of Uranus, CHARLES BOIS is the reporter for the facts, and nothing but the facts, on our new spacevision channels.

MARYRITA BOYLE is employed as Admirella-in-Chief of the Women's Air Patrol.

Kartiganer Corp. of Upton has received a contract from the Air Patrol for their entire supply of hats. MONA BROWN is the designer for these new hats.

PHIL BURBANK has fast become the star dancer of the Planets. He is known for his famous dance on a stairway of stars and is nicknamed Twinkle-Toes.

BILLY BURKE is the sound-effects man on *Jet Net* starring Jack Webb, the number 1 program on Spacevision.

SHIRLEY CARAVALHO, model, gets many stares and admiring glances from the opposite sex for her amazing hair styles which seem to glow from the inside of her space helmet.

DICK CHANNELL is now a retired playboy at 28 years old. He has reaped millions, being the first person to establish a green cheese factory on the moon.

MARJORIE CHRISTIAN is the owner of an exclusive dress shoppe. She now wears a dress only once, then gives it to the Anti-Strike-It-Rich Army.

BEVERLY DESPRES is now quite conservative and is universally known for her performance as the most original Lady Macbeth which she has introduced to the other planets and has raised the Lady to great heights.

LOUISE DROLET, private secretary to the King of Raymond-ia, is on an indefinite Peace Conference somewhere on the moon.

HELEN FADDEN is content to be known as Mrs. Harold Hopkins, wife of one and mother of 5 little Space Cadets.

GORDON FARMER, still known as the Cuban charmer, is giving a singing performance before the King and Queen of Graftonia, a newly discovered planet.

BARBARA FELTON is keeping herself busy these days as a collector of recipes. This will be her 3rd best seller entitled GrandMa Felton's Tasties.

WALLY FLYNN, having taken over his father's business, Hilltop Spa, now has a new location, smack on top of the rainbow. One asks for an order and he simply slides it down one of the colors of the rainbow.

Can't you just see 6 foot 8 inch RONALD GRENIER as the President of Pluto, where a race of miniature people live. Why! He would be a Gulliver Space Traveler in his own world.

HENRY HEBB is the ground navigator for the Interplanetary Eastern Air Lines. He finds the shortest distance between two points.

DONALD HESELTION runs the Uni-man Dairy at the Milky Way, which completely eliminates the use of cows.

NANCY JOHNSON is the head supervisor of the Space-Line Hostesses for the Interplanetary Eastern Air Lines.

NANCY KELLY'S sense pertaining to children fits in perfectly for her job of housemother at a Multiplanet Orphanage.

THERESA LaFOUNTAIN'S French III at G.H.S. has helped her immensely in her work. Jupiter's language is very similar to French and she has become their translator at the United Planets Assembly.

CLEMENT THEOPHILE LAMBERT, as an electrician, rumors report, has just made his first connection, thus shocking the Universe.

LAWRENCE LAMOTHE is a Plainclothesman in the finger-printing department of the Universal Bureau of Investigation.

Our most attractive and romantic KENNY LEDOUX is living up to his qualities as a Swami. He has a palm-reading emporium floating in space, and brings romance into many lovely ladies' lives.

BRUCE LONGBOTTOM is Director of a year-round boys' camp at the Hot Spring of Mercury. It is known as the Fountain of Youth.

NORMA LONGTON is taking care of absolutely all accounts at Ramsey's Hot-Rod-Jets.

LLOYD MacKENNA, former basketball star of G.H.S., is now making a tour with his famed Big Dipper Dribbling Team.

SHIRLEY MARSHALL is always found amongst a crowd; she displays her famous cultured pearls made from dew drops.

Can't you picture CHARLES MERIGOLD found surrounded by a bevy of beauties? Chuckie has worked very diligently and invented these beautiful streamlined mechanical woman ROBOTS.

RENA NELSON has worked alongside Chuckie but has perfected just the opposite, mechanical men.

BEATRICE NEVERS is in partnership with her brother DON and they have an experimental rocket-ship shop at which they discovered the radar-matic rocket ship.

THOMAS O'LEARY, always so conventional, has at last realized his ambition. He opened a Rare-Flowers Store and does his best work when dealing with Shamrocks.

RITA O'NEIL also has a successful business on Pluto. She has opened a new Ultra-modern Atomic Beauty Salon and loves creating styles for the tiny heads that she has to work with.

Loyal to the end is ALFRED O'ROURKE, who won't give up the Navy. He has built himself a floating ship and is sailing from one planet to another.

**FRANCIS PARADIS** is still a rainmaker; only now he is on the Little Dipper controlling the amount of rain that the earth should have.

**NANCY PERRY**, still a roller-skating enthusiast, has organized her own roller-skating derby. Her skate arena is the largest in the universe; the ring around Saturn.

**HEATHER PHELON**, so quiet in school, is a diplomat, representing Earth at Saturn, curing Earth and Saturn of their a-tonic aches.

**EUGENE POISELLI** has a museum in front of his Rocket-Repair-It-Shop. In the front window, encased in glass, is his 1948 Maroon Mercury Convertible.

**ROBERT POUSLAND** will be found amidst the craters on the moon. He is still a scientist and is trying to find out what makes the moonlight.

**MARCIA QUILLIAM** is the ghost writer for the President of the United Planets Assembly. Her speeches are said to be a combination of Abe Lincoln's and F.D.R.'s.

**DOROTHY RIVERS** is a buyer for a large chain of fashion stores. She has just bought a new dress that she thought was absolutely "out of this world."

**BEVERLY SADLER** has made millions by selling the secret of having natural nice blond hair—naturally.

Imagine **OLIVER SELBY** in his speed boat, built at old Grafton High, churning up all the milk on the Milky Way and making his own frappes.

**WILLIAM SHACKETT** was elected Treasurer of the Planet Graftonia for his second term. We always knew he would graduate into big things retiring from the services of the class of '54.

**JUNE SIMONEAU** is at the Multipetitarian Hospital. She is now an outstanding veterinarian. Favorite patient? A pet named Allan.

**CLAUDIA SNOW** is the owner and also the star performer of her nightclub, Stardust.

**MONICA SUCH** is working as advertising manager for a toothpaste company called The Orbit. She also models for Orbit smiles, whose slogan is, "So right, so bright, so enchantingly white."

**SHIRLEY STOTT** is the girls' athletic instructor for the planet of Graftonia. It is rumored that she may be the winner in the high jumps in 1964 Olympics.

**JOSEPH TAMOSUNAS** is the sole owner and inventor of a new cereal that is shot from ray guns. He buys all the grain from the Veteran Grain Store then puffs them into dew-coated shots.

**LEONARD TESSIER** has given up his paper route in Fisherville only to take over a new one delivering to the planets. Capella, the goat star, pulls his delivery wagon.

**JOANNE VARNER'S** wide extent of knowledge made her the perfect person for the job of Head of the Planet's Information Bureau.

And now, I saved this little tidbit for last because I knew it would be the biggest shock of all. **ELIZABETH OHMAN**, confirmed OLD MAID for 1954, is now a confirmed fiancee in 1964. In the fall she weds a professor from the Venusian University.

Well, that takes care of all my predictions and now, as I climb into my super-sonic rocket ship preparing to take off into the wild blue yonder, I wonder how close I came to guessing the class' occupations. Only time will tell. Must sign off here, the rocket is blasting off jet power and I must make the best use of it. See you around the Satellites in your green sneakers.

Our witnesses, Miss Cole and Mrs. Lowell, do hereby testify to the infallibility of this last will and testament. Any hint of incrimination on the part of the class of 1954 is purely intentional.

ZEPHYRUS

## *Freshmen*

Your career in high school is just beginning as ours draws to a close. With thoughtful admiration we have watched your progress from the customary stage of submission to a high degree of self-reliance. You, too, will accumulate abundance of knowledge, share many wonderful experiences together, and cultivate many life-long friendships. The years will pass quickly, however, leaving you with only cherished memories. As your big brothers and sisters, we wish to leave you with this one thought: "Take advantage of opportunities offered to you and you will hold the secret to success in high school."

## *Sophomores*

Your past year marked the half-way point in your high school career. The thrill of sponsoring your first school dance, the Sophomore Hop, has made you look forward with great anticipation to your next school function. We admire the ambition and spirit you have displayed thus far in trying to make the most of the educational opportunities and extra-curricular activities offered to you. Realizing the amount of satisfaction you will derive and the amount of pride Grafton will show through your efforts, we feel confident you will want to continue your active participation.

## *Juniors*

As our turn draws near to depart from the realms of Grafton High, we are being replaced by a capable group of enthusiastic Juniors. Destined to become the leaders of this school in classroom, athletics, and clubs, the Juniors have our fondest hopes for happiness and success. For three years a close friendship has developed between the classes of 1954 and 1955, stemming from our participating in the activities and attending one another's plays, proms, dances, and class trips. May we again wish you the very best success in all you undertake in the future.
